

Number Types (Complex) - Set Builder Letter to Number - Real, Imaginary, and Complex Numbers

1 Which number would be included in the type defined by this symbol

A $\frac{2}{3}$

B $4 + \frac{97i}{8}$

C $\sqrt{31}$

2 Which number would be included in the type defined by this symbol

A

B

C

-3

$31i$

$\sqrt{17}$

3 Which number would be included in the type defined by this symbol

A

B

C

$-\frac{2}{6}$

-12

0

4 Which number would be included in the type defined by this symbol

A

B

C

$43i$

$\sqrt{23}$

22

5 Which number would be included in the type defined by this symbol

A

B

C

$\sqrt{79}$

-20

$\frac{1}{9}$
