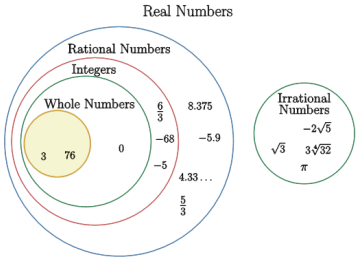
Name

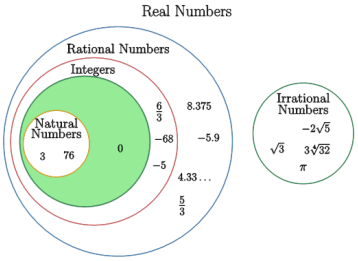
Number Types (Real) - Diagram Section to Description - Whole, Natural, Integer, Rational, Irrational Numbers

1 Select the description of the highlighted grouping



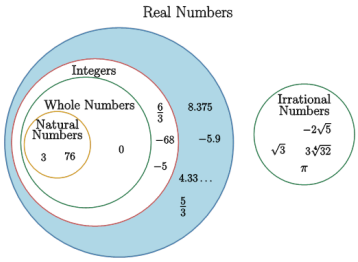
A. A positive integer (1, 2, 3, ...).
B. Any number that can be expressed as a fraction of two integers (e.g., 1/2, -3/4, 5).
C. Any number that can be found on the number line, including both rational and irrational numbers.
D. A number that cannot be expressed as a simple fraction (e.g., √2, π).

2 Select the description of the highlighted grouping



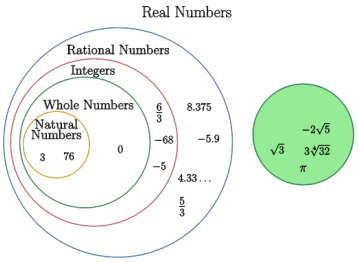
A. Any number that can be found on the number line, including both rational and irrational numbers.
B. A positive integer (1, 2, 3, ...).
C. Any number that can be expressed as a fraction of two integers (e.g., 1/2, -3/4, 5).
D. A non-negative integer (0, 1, 2, 3, ...).

3 Select the description of the highlighted grouping



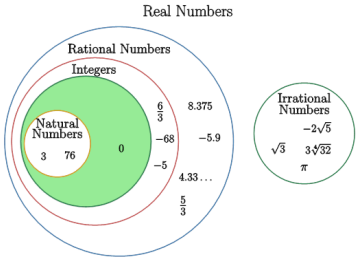
A. A non-negative integer (0, 1, 2, 3, ...).
B. Any number that can be found on the number line, including both rational and irrational numbers.
C. Any number that can be expressed as a fraction of two integers (e.g., 1/2, -3/4, 5).
D. A positive integer (1, 2, 3, ...).

4 Select the description of the highlighted grouping



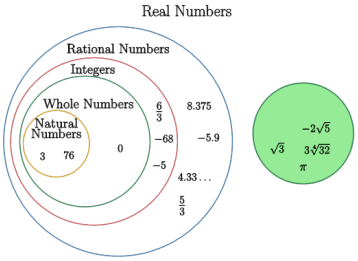
A. A non-negative integer (0, 1, 2, 3, ...).
B. A positive integer (1, 2, 3, ...).
C. Any number that can be expressed as a fraction of two integers (e.g., 1/2, -3/4, 5).
D. A number that cannot be expressed as a simple fraction (e.g., √2, π).

5 Select the description of the highlighted grouping



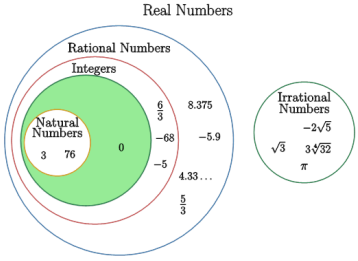
A. A non-negative integer (0, 1, 2, 3, ...).
B. A positive integer (1, 2, 3, ...).
C. Any number that can be expressed as a fraction of two integers (e.g., 1/2, -3/4, 5).
D. Any number that can be found on the number line, including both rational and irrational numbers.

6 Select the description of the highlighted grouping



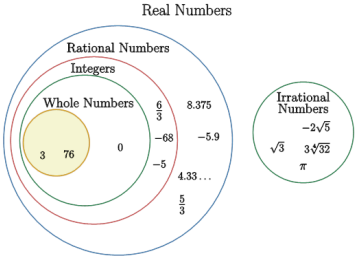
A. A number that cannot be expressed as a simple fraction (e.g., √2, π).
B. A non-negative integer (0, 1, 2, 3, ...).
C. Any number that can be expressed as a fraction of two integers (e.g., 1/2, -3/4, 5).
D. A positive integer (1, 2, 3, ...).

7 Select the description of the highlighted grouping



A. A non-negative integer (0, 1, 2, 3, ...).
B. A positive integer (1, 2, 3, ...).
C. A number that cannot be expressed as a simple fraction (e.g., √2, π).
D. Any number that can be expressed as a fraction of two integers (e.g., 1/2, -3/4, 5).

8 Select the description of the highlighted grouping



A. Any number that can be found on the number line, including both rational and irrational numbers.
B. A positive integer (1, 2, 3, ...).
C. A number that cannot be expressed as a simple fraction (e.g., √2, π).
D. A non-negative integer (0, 1, 2, 3, ...).
