

Scientific Notation (Decimals) - Multiplying Normalized Numbers (0 Decimal Place)

1 Solve the equation by multiplying numbers that are almost in scientific notation

$$(6 \times 0.001) \times (1 \times 0.0001)$$

A 6×0.000001
5 zeros

B 6×0.0000001
6 zeros

C 6×0.00000001
7 zeros

D 6×0.000000001
9 zeros

2 Solve the equation by multiplying numbers that are almost in scientific notation

$$(2 \times 0.001) \times (5 \times 0.000001)$$

4 zeros

A 1×0.000000001
8 zeros

B 1×0.00001
4 zeros

C 1×0.0000001
6 zeros

3 Solve the equation by multiplying numbers that are almost in scientific notation

$$(5 \times 0.001) \times (1 \times 0.000001)$$

4 zeros

A 5×0.00000000001
10 zeros

B 5×0.0000000001
9 zeros

C 5×0.0000001
5 zeros

D 5×0.00000001
7 zeros

4 Solve the equation by multiplying numbers that are almost in scientific notation

$$(7 \times 0.0001) \times (1 \times 0.000001)$$

4 zeros

A 7×0.00000000001
10 zeros

B 7×0.000000001
8 zeros

C 7×0.0000000001
9 zeros

D 7×0.00000001
7 zeros

E 7×0.0000001
6 zeros

5 Solve the equation by multiplying numbers that are almost in scientific notation

$$(2 \times 0.0001) \times (3 \times 0.001)$$

A 6×0.0000000001
9 zeros

B 6×0.0000001
6 zeros

C 6×0.00000001
7 zeros

D 6×0.00001
4 zeros

6 Solve the equation by multiplying numbers that are almost in scientific notation

$$(2 \times 0.000001) \times (4 \times 0.001)$$

4 zeros

A 8×0.00000000001
10 zeros

B 8×0.00000001
7 zeros

C 8×0.0000001
6 zeros

7 Solve the equation by multiplying numbers that are almost in scientific notation

$$(2 \times 0.001) \times (4 \times 0.000001)$$

4 zeros

A 8×0.0000000001
9 zeros

B 8×0.000001
5 zeros

C 8×0.00000001
7 zeros

D 8×0.0000001
6 zeros

8 Solve the equation by multiplying numbers that are almost in scientific notation

$$(2 \times 0.001) \times (4 \times 0.0001)$$

A 8×0.00001
4 zeros

B 8×0.0000000001
9 zeros

C 8×0.0000001
6 zeros
