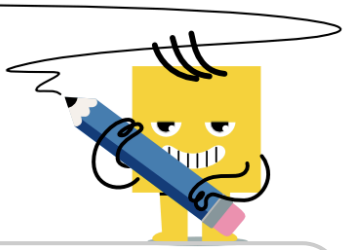
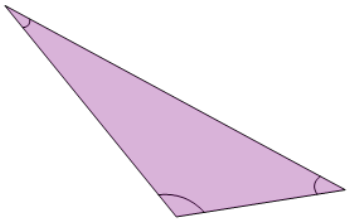
Name

Triangle Classification - Angles - First Time



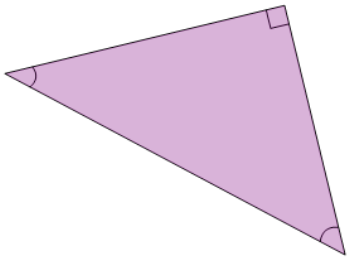
1



In geometry, what's the name for a triangle where one of the angles is more than 90°?

A	B
Obtuse	Octopus

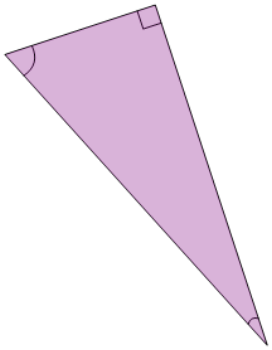
2



In geometry, what's the name for a triangle where one of the angles is equal to 90°?

A	B
Right	Revelry

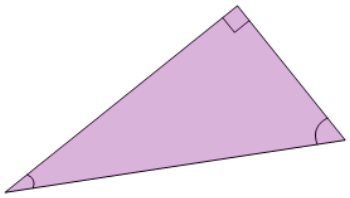
3



In geometry, what's the name for a triangle where one of the angles is equal to 90°?

A	B
Rostrum	Right

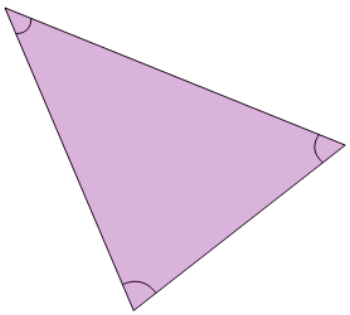
4



In geometry, what's the name for a triangle where one of the angles is equal to 90°?

A	B
Rheumatoid	Right

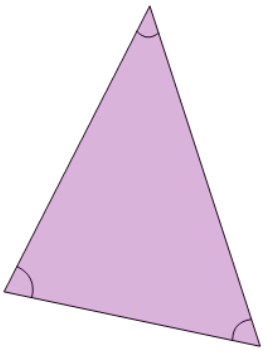
5



In geometry, what's the name for a triangle where all angles are less than 90°?

A	B
Actual	Acute

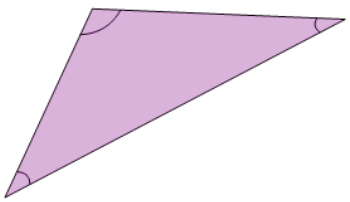
6



In geometry, what's the name for a triangle where all angles are less than 90°?

A	B
Ardvark	Acute

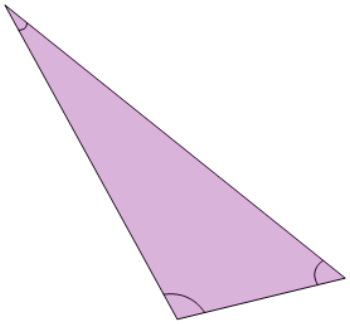
7



In geometry, what's the name for a triangle where one of the angles is more than 90°?

A	B
Orange	Obtuse

8



In geometry, what's the name for a triangle where one of the angles is more than 90°?

A	B
Obtuse	Oblong
